

Code of Conduct for Labour Standards in the Workplace

Today's reinforced interest in the role of business in society has been prompted by increased sensitivity to and awareness of environmental and ethical issues. Issues such as environmental damage and the improper treatment of workers have been highlighted in the media, increasing the pressure on businesses to play a role in social and environmental issues.

At Klopman we share our customers' growing concern. As a major textile producer, Klopman believes it is important to take responsibility for our actions. Our customers have always demanded high standards from us when it comes to product and services and, quite rightly, they expect high standards in terms of corporate social responsibility and trust us to work ethically.

This Code of Conduct has been developed to define the key labour standards that Klopman is committed to respecting in our workplace. Our employees understand that complying with this policy is no less important than meeting our existing high-quality standards in terms of product or service.

We encourage our business partners to respect the principles of this code of conduct.
