FABRICS FOR HEALTHCARE

QUALITY THAT WORKS

FABRICS MADE IN ITALY

FABRICS FOR HEALTHCARE

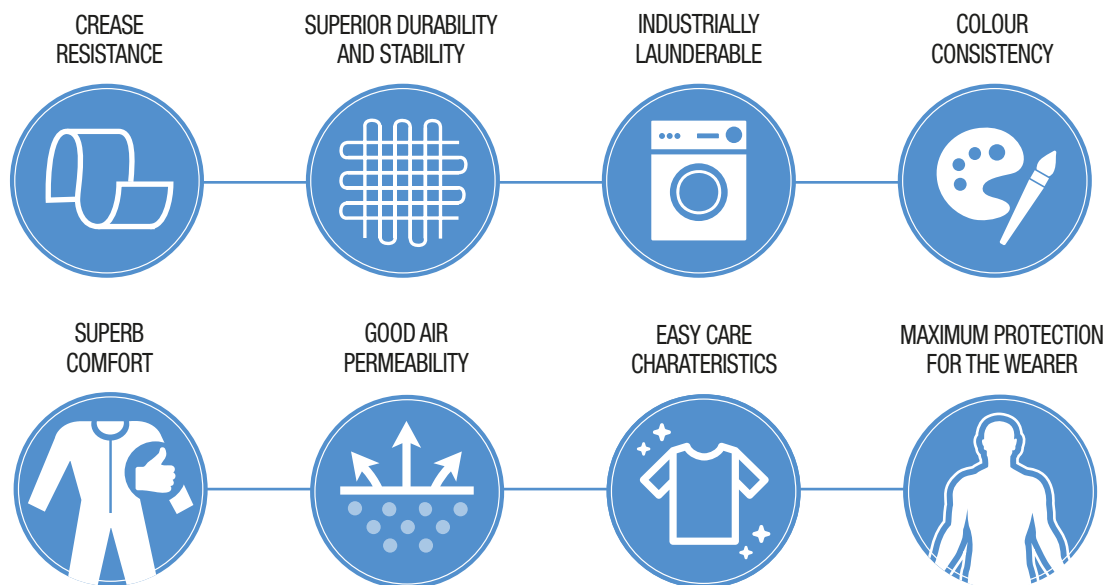

Our long experience in the workwear industry has allowed us to develop an extensive collection of fabrics specifically designed to meet healthcare requirements with the highest possible standards of image, hygiene, comfort and performance.

Klopman has worked closely through the years with Europe's leading garment manufacturers and rental laundries, as well as hospitals, clinics and wearers, to understand their requirements and develop fabrics which satisfy all their needs.

Klopman's wide variety of fabrics produces colourful garments which transmit a positive image to the public. Moreover, our fabrics offer the best breathability and safety for the wearer, with a large number of **skin-friendly fabrics developed in Oeko-Tex® Class 1 and Class 2**, certified for harmful substances ensuring customer confidence and high product safety.

FEATURES

COTTON-RICH:

Specifically developed as an alternative to 100% cotton, cotton-rich fabrics combine the comfort and absorbency of cotton with the extra durability and performance qualities of polyester. Klopman's cotton-rich fabrics meet the demands of the widest range of garments, from heavy-duty workwear to clothes which require softer styling and drape.

COTTON-RICH

FABRIC	WEIGHT	BLEND	WEAVE	FINISH
Charlotte	180 g/m ²	50% Cotton 50% Polyester	2 x 1 Z Twill	Crease resist finish
Charlene	195 g/m ²	60% Cotton 40% Polyester	Satin 5	Crease resist finish
Bravo	200 g/m ²	60% Cotton 40% Polyester	2 x 1 Z Twill	Crease resist finish
Diva	200 g/m ²	60% Cotton 40% Polyester	Satin	Crease resist finish
Vienna-W	210 g/m ²	50% Cotton 50% Polyester	2 x 1 Z Twill	Crease resist finish

STRETCH FABRICS:

Two product families designed to bring more comfort and greater freedom of movement to the wearer:

Star-Line: thanks to an exclusive construction method, Klopman Star-Line fabrics have permanent stretch properties and can be washed industrially at 75°

K-Flex: a new range of fabrics with XLANCE fibre, guaranteeing long-lasting stretch and recovery, great flexibility and the ultimate in shape retention and fit.

STRETCH

FABRIC	WEIGHT	BLEND	WEAVE	FINISH
K-Flex 200	200 g/m ²	49% Cotton 49% Polyester 2% EOL (XLANCE)	2 x 1 S Twill	Crease resist OC1 finish
K-Flex 215	215 g/m ²	65% Polyester 32% Cotton 3% EOL	2 x 1 S Twill	Crease resist OC1 finish
K-Flex 220	220 g/m ²	48.5% Cotton 48.5% Polyester 3% EOL (XLANCE)	2 x 1 S Twill	Crease resist OC1 finish
Showstar	250 g/m ²	65% Polyester 35% Cotton	2 x 1 Z Twill	Crease resist finish

FABRICS MADE WITH TENCEL™ LYOCELL FIBRE .

Klopman's polyester/TENCEL™ Lyocell eco-friendly fabrics bring a new sensation to workwear garments, offering enhanced softness and drape, excellent moisture absorption and breathability. Blended fabrics that allow the wearer to feel cooler and dryer, even in hot and humid conditions. Textiles made with TENCEL™ fibres are more absorbent than cotton, softer than silk and cooler than linen.

FABRIC	WEIGHT	BLEND	WEAVE	FINISH
Oxford	195 g/m ²	50% Lyocell (TENCEL™) 50% Polyester	2 x 1 S Twill	Crease resist OC1 finish
Helford	215 g/m ²	50% Lyocell (TENCEL™) 50% Polyester	2 x 1 S Twill	Crease resist OC1 finish
Chalford	215 g/m ²	65% Polyester 35% Lyocell (TENCEL™)	2 x 1 S Twill	Crease resist OC1 finish
Chalford Flex	215 g/m ²	65% Polyester 32% Lyocell (TENCEL™) 3%EOL (XLANCE)	2 x 1 S Twill	Crease resist OC1 finish

POLYESTER/COTTON:

Klopman's polyester-cotton fabric are designed to offer a balance between performance, comfort, durability and longevity. These fabrics ensure a longer working life, with outstanding wearer protection qualities and withstand repeated high-temperature industrial laundering.

FABRIC	WEIGHT	BLEND	WEAVE	FINISH
Superbandmaster	210 g/m ²	65% Polyester 35% Cotton	2 x 1 Z Twill	Crease resist finish
SBM 2000	215 g/m ²	65% Polyester 35% Cotton	2 x 1 Z Twill	Crease resist finish
Utopia	170 g/m ²	65% Polyester 35% Cotton	Plain	Crease resist finish

GO GREEN: CHOOSE OUR GREENWEAR SOLUTIONS

In line with our corporate social responsibility program, all Klopman fabrics are available with the option to use:

Organic cotton: produced in a responsible way.

Fairtrade-certified cotton: blended fabrics using 100% Fairtrade-certified cotton to ensure that the farmers receive a fair and stable price for their cotton.

BCI cotton: from the Better Cotton Initiative, a no-profit association responsible for ensuring the cotton is produced with constant attention to the environment, to farming communities and the economies of cotton.

Fabrics made with PET water bottles: the recycled polyester can be used in all Klopman product ranges, guaranteeing the customer Klopman's high quality standards in terms of comfort, image and durability, while increasing sustainability credentials and confirming respect for the environment.

FABRIC	WEIGHT	BLEND	WEAVE	FINISH
Superbandmaster R-PES	210 g/m ²	65% Polyester 35% Cotton	2 x 1 Z Twill	Crease resist OC1 finish

CORPORATEWEAR – COOL STRETCH FABRIC :

Fabrics developed to combine comfort, easy care and freedom of movement for the wearer. Klopman's Lagonda stretch fabric is certified for LYCRA®TOUGHMAX™ technology as well as COOLMAX®core technology.

Containing INVISTA's LYCRA®T400®fibr, it allows moisture to be drawn away from the skin to the outer surface of the fabric, where it evaporates. As a result, the wearer feels cooler and more comfortable, with no unpleasant wetness next to the skin.

FABRIC	WEIGHT	BLEND	WEAVE	FINISH	DOMESTIC WASH ONLY Industrial wash max 60°C
Lagonda	205 g/m ²	40% Cotton 30% Polyester 30% EME (LYCRA® T400 fibre)	2 x 1 Z Twill	Crease resist OC1 finish	

KLOPMAN'S ANTIBACTERIAL FINISH:

is a high-performance fabric treatment that offers exceptional levels of antibacterial protection and meets the stringent hygiene requirements of the healthcare industry. Klopman's Antibacterial Finish can be applied to all Klopman fabrics and is guaranteed for 100 washes at 75°.
